

Thesis Method, Analysis, and Feasibility Audit

CFAN 3091V | Milestone 6, Fall Graduation Track

Name: _____

Due: October 14, 2026

The same structure as the Proposal Development Blueprint, aimed at work already done rather than work planned. Use these headings; you may type it instead.

Write **not applicable** with a reason where an item does not fit your project.

1. Design Actually Used

The design as carried out, not as originally proposed:

Where it departed from the original plan, and why:

Strands: ☐ one only ☐ more than one. If more than one, what each carries that the other cannot and where they meet; if one only, what that leaves unanswered: _____

2. Data or Evidence Obtained

What you actually have in hand:

3. Analysis Status

Complete:

Outstanding, with what each remaining step requires:

4. Ethics or Permissions Status

☐ Not applicable, because _____

☐ Approved ☐ Pending ☐ Needs action

Detail and dates:

5. Strongest Supported Claim

The claim:

The evidence that carries it, and the limit of what it shows:

6. A Claim Needing Qualification

Take one claim your completed work can no longer fully support and narrow it. Both versions are required.

Claim as currently written in the thesis:

Narrowed version the evidence supports:

What in the results forced the narrowing:

7. Largest Completion Risk

The risk:

Dated response. What you will do, and by when.

8. One Question for Your Primary Advisor or Committee

Specific enough to be answerable.

Instructor Check

☐ Satisfactory ☐ Not Yet Satisfactory

Satisfactory means a reader can see what the completed work supports, what it does not, the largest completion risk, and a dated response to it.

Brief feedback or next step:
