

30-Second Pitch Practice

CFAN 3091V | Week 10 Proposal Development

Speaker: _____ **Listener:** _____
Project topic or working title: _____

Draft the Pitch

Use this structure, then make the language your own:

I am studying [topic or problem] **because** [significance]. **My question is** [research question]. **I will investigate it by** [method or evidence].

First draft:

Listener Check

The speaker reads the pitch once. The listener answers without asking for a second reading.

What I heard the research question was:

What I heard was significant or unresolved:

What I heard about the method or evidence:

One element I could not repeat or one question I still have:

Revise Once

Choose the change that will make the argument easier to follow: narrow the topic, state the question directly, explain why it matters, name the method, or remove a claim the design cannot support.

What I changed and why:

Revised pitch:

Wednesday Writing Target

Name one transition or design gap you will address while assembling your Week 10 draft.

My Wednesday target: _____

The section or paragraph where I will address it: _____
